

**A POLLEN BASKET:  
*LYCOREA* AS POLLINATOR  
(LEPIDOPTERA: NYMPHALIDAE: DANAINAE)**

**GARY N. ROSS**

6095 Stratford Ave., Baton Rouge, Louisiana 70808, USA

A *Lycorea cleobaea atergatis* Doubleday butterfly carries an orchid pollen capsule, or pollinium, which has an adhesive coating to adhere to insect visitors, thus assisting in cross pollination, at the FAUTRON Tropical Rainforest Reserve, Fazenda Rancho Grande, near Cacauplandia, Rondônia, Brazil, 13 Feb 1991.
